WEST PAPUA- RAJA AMPAT

With over 17,500 islands, Indonesia is the world's largest archipelago and offers some of the best dive spots in the world. Boasting the highest marine biodiversity of all, Indonesia is home to 15% of the world's coral reefs and has over 4,000 recorded different fish & invertebrate species - with many more yet to be identified. Dive alongside manta rays and various kinds of sharks, including white tip, grey reef and wobbegongs. There is also fantastic muck diving in Indonesia with a plethora of tiny critters and a huge diversity of fish.

From pelagic drift dives to magical muck dives and even some habitats that are special to Raja Ampat such as clear water mangroves with corals growing right next to them; There are thousands of potential dive sites in Raja Ampat. Exploration is still continuing and on every trip there are chances for new and amazing discoveries. On this 7 night itinerary we will take you to some of the very best sites which Raja Ampat has to offer.

The Ultimate Liveaboard Adventure

Cruise, Explore & Dive the heart of the Coral Triangle!

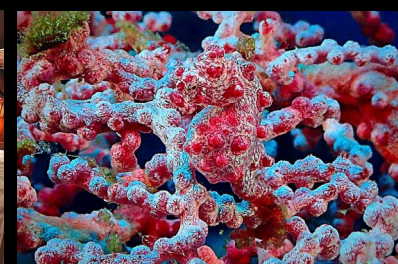

Ex Sydney from **\$6495**

Special Group Departure
05 February to 14 February 2023

Join us on the voyage of a lifetime aboard the SY Indo Siren to the remote and pristine reefs of Raja Ampat. Far to the wild eastern edge of the Indonesian archipelago, Raja Ampat boasts a biodiversity that's unrivalled in any other ocean on the planet. A region of more than a thousand islands ranging in size from small to tiny lies in the geographic heart of the Coral Triangle, home to a greater diversity of marine species than anywhere, from corals to mollusks, fish, invertebrates and beyond. Conditions apply.
